ABOUT

1900 marks the beginning of our history. We started in a small workshop where the pieces were made entirely by hand on a potter's wheel and then cooked in a wood kiln. Over the years and with the advance of technology, we always tried to invest in innovative equipment, adding to them the know-how that has enabled us to grow and acquire the experience we have today.

In 1988 we founded Vasicol - Portugal Terracota. From the beginning, our commitment has always been to look to the future with a great sense of challenge and responsibility towards our partners and employees, but also to look to the past with great pride in the way we have traveled through time and what we have already achieved.

TERRA

Immerse yourself in the Terra collection, where the warm, earthy tones infuse your table with a sense of rustic charm. It's about bringing the comfort of the outdoors inside your home, in a way that's both inviting and down-to-earth.
